CONTROL SYSTEMS

EXPOACCESS

The **ExpoAccess** is a Web enabled wireless mobile lead collection device and real-time web page lead management system. This new technology concept uses the java enabled color Blackberry platform to transfer data from an attendee's badge to an exhibitor's personal event web site. All leads can be custom qualified using the web site for personalization. Using this RCS system, exhibitors do not need to carry away a CD or memory stick or wait in line to download or "retrieve" data at the end of the event. The wireless enabled mobile unit delivers all the sales lead data in real-time to a secure exhibitor web site with online password protected access by the exhibiting company's personnel. The Web enabled ExpoAccess mobile unit provides a totally new approach to lead collection, management and follow-up. Data can be accessible at the web site for up to 90 days after the event.

The **Qualify Option** allows easy selection of qualifying criteria for each lead by use of a thumbwheel similar to the modern cell phones.

	Data Storage/Downloads	Lead Printing Options	Qualifier Options	Capacity	Power	PC Required
ExpoAccess	Leads are stored on exhibitors personal web site in real time	Leads can be printed from web site	10 customized qualification questions with 10 answers each on web site (included)	Unlimited	Rechargeable Battery (no electricity required)	NO
